DETAILED ACTION

Response to Amendment

1. This action is issued in response to applicant's Amendment A(Paper #5) filed 12/31/02.
2. Claims 1-5 were amended. New claims 6-20 were added. None were deleted.
3. Claims 1-20 are now pending.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-20 are rejected under 35 USC 103(a) as unpatentable over Longfield(US Pat. No: 5,193,057) in view of George(US Pat. No: 5,946,668) and further in view of Bern(US Pat. No: 5,138,549).
6. Longfield discloses a system for providing a loan to a taxpayer comprising historical refund data, year to date income information, year to date expense information, a processor adapted to process the data and a loan provided to the taxpayer(Abstract)(Fig 1)(col 1 line 44-col 2 line 4)(Appendix 1). George teaches a system for funding a home investment trust wherein the tax refund is estimated in order to fund a home investment trust(col 1 lines 5-10)(col 1 line 48-col 2 line 2)(Fig 1)(Fig 2)(Fig 3).Bern teaches trend analysis in the establishment of tax vouchers and

Art Unit:3624

the tracking of a depositor's deposit patterns(col 2 lines 16-34) and producing a paper trail of all tax deposits performed historicallyh(col 5 lines 20-34)(Figs 1-7). It would have been obvious to one skilled in the art at the time of the invention to combine Longfield in view of George and further in view of Bern to teach the above. The motivation to combine Longfield in view of George is to teach the funding of a liability by a tax refund credit as enunciated by George(col 1 lines 8-10).Furthermore, the motivation to combine Longfield in view of George and further in view of Bern is to teach a documentation system for tax deposits and accounts of a taxpayer which can be used as historical data for trends as enunciated by Bern(col 5 lines 34-41) which may be used to estimate loanable funds based on anticipated refunds.

Response to Arguments

7. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment constituting newly added claims necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit:3624

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
